

You bring all of your own personal equipment. Before the trip, agree with your guide your high-altitude boots, crampons, ice axe or ice tool, harness, descender, ascender, sleeping bag and outer clothing. Anything incompatible or not warm enough has to be replaced before you leave for Karkara.

The total baggage allowance for the helicopter lift is up to 30 kg per participant. Excess weight is charged separately, so weigh your kit in advance and do not add optional items without agreeing them.

Documents

- Passport
- International air tickets
- Medical insurance covering mountaineering to at least 7010 m, rescue and evacuation
- Digital copies of your documents on your phone and in cloud storage
- Waterproof document wallet
